

Slim, and Easy-to-use

Features:

- Ultrasonic multifeed detection
- Large 11.7" x 16.5" scanning area
- Multiple images cropping
- Easy-to-use button scanning
- Auto crop, deskew and thresholding image-enhancing features
- Bundled software applications include Avision Button Manager, Avision AvScan 5.0, Nuance PaperPort SE 14

The AV5100 is Avision's next generation of A3 document scanner. Based on CIS (Contact Image Sensor) technology, the scanner is much more slimmer compared to traditional scanner with CCD design.

Capable of scanning up to A3 size, the slim AV5100 is perfectly suited to scan complete book spreads, two letter-sized pages (simultaneously), large-format magazines, legal-sized documents, photographs and more, all in brilliant color.

In addition, the scanner comes with the convenient feature of multiple images cropping. With this feature, various sizes of documents such as photos, ID Cards, or business cards can be placed on the flatbed and the scanner is able to crop and create multiple images according to the original sizes of the documents in one single scan.

The Avision AV5100 is a high-speed and high-performance scanner capable of processing A3 sized paper. If large amounts of paper need to be processed, purchase the built-in auto-document feeder which accommodates a batch of 50-page document to be scanned continually at one time. At a scanning rate of 30 pages per minute, the Avision AV5100 is truly a scanning powerhouse to meet all your scanning needs for A3-sized documents.

AvScan

-The Intelligent Document Management Tool

The AvScan 2.0 main screen

Document Imaging is the very first step of Document Management. However, poor quality images can cause serious problems to later indexing or storing processes. It may increase scanning labour costs and lowers the OCR accuracy. AvScan 5.0 ensures all documents are checked and polished at the time they are scanned such that the image quality is guaranteed before they are ready to use for other purposes.

AvScan 5.0 is an intelligent scanning and electronic filing solution. AvScan 5.0 possesses distinct features that convert and index scanned information into electronic documents for easy storage and fast retrieval.

ScanSoft PaperPort SE14

- The Professional Choice to Organize and Share Your Documents

The PaperPort 11SE main screen

PaperPort SE 14 is the easiest way to turn piles of paper and photos into organized files that you can quickly find, use and share. Stop wasting time searching for paper documents. End the frustration of organizing, editing and sharing your digital photographs. PaperPort SE 14 makes it simple to connect your scanner and computer together to work with PDF and JPEG images just like working. It is the perfect solution for your home or small office. Save time and money with the security of knowing that important documents and photos will never be lost.

Avision TWAIN Driver

(Smart image)

Avision TWAIN UI

Avision's easy-to-use TWAIN driver provides various useful features such as auto color detection, color matching, multi-feed detection, and blank page removal to enhance your image quality and improve your productivity.
